

ACHIEVE

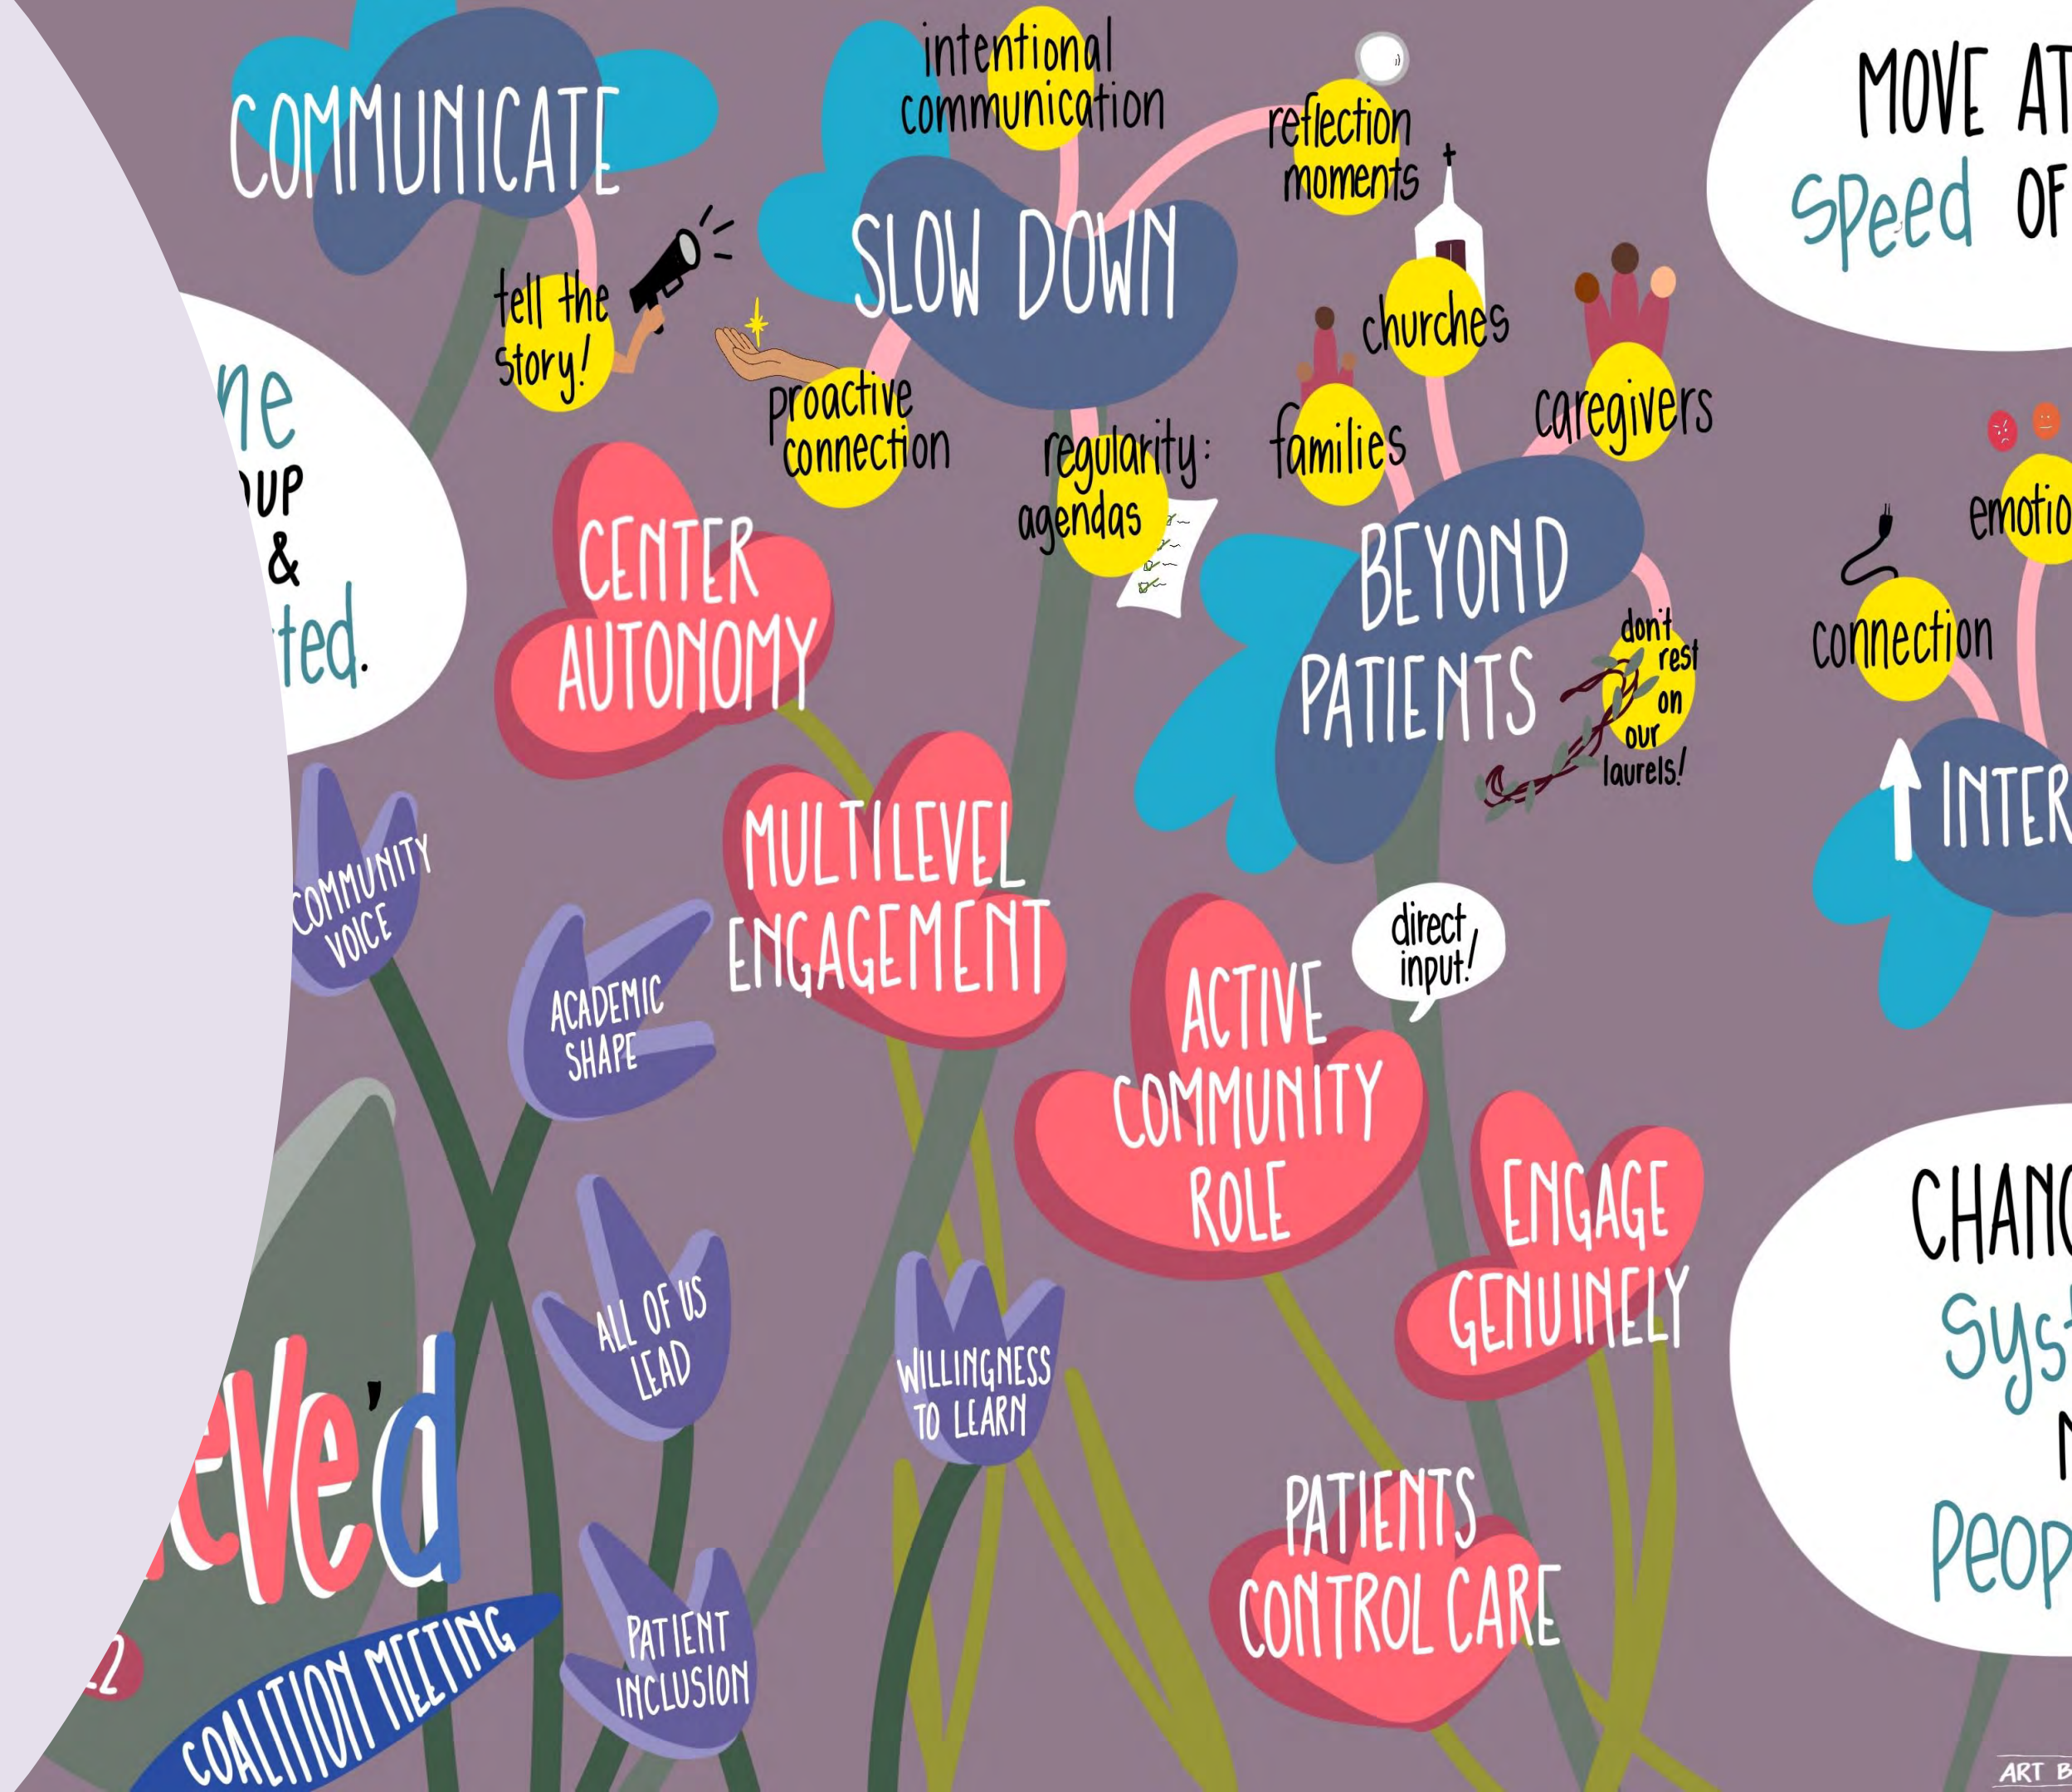

Advancing Community and Clinical Care for Childbirth related Hypertension through Implementation, Engagement, and Valuing Equity

Goal of ACHIEVE

To demonstrate the impact of implementation strategies on the adoption and implementation of the outpatient hypertension bundle in settings that reach birthing people at the greatest risk for maternal morbidity and mortality

ACHIEVE

Outpatient HTN Bundle

- Readiness
- Recognition
- Response
- Reporting
- Respectful Care

ACHIEVE

Implementation Strategies

- Trainings
- Coaching Sessions
- Distributing Education
Materials
- Simulations
- Community Engagement

The Implementation Team

At a minimum needs
to include-

- Medical Assistant
(or equivalent)
- Nurse
- Provider
Champion

Expectations

Clinic

- Select a provider champion
- Establish implementation team
- Schedule and Participate in trainings and simulations
- Schedule and Participate in blood pressure observations
- Participate in quality improvement activities
- Sustain improvement

Implementation Team

- Schedule and Participate in coaching sessions
- Tailor protocols to your clinic setting
- Disseminate patient education materials
- Develop / revise policies and procedures to adhere to guidelines
- Participate in data collection surveys and interviews
- Plan how to sustain improvement

Time Requirements of the Clinic Staff and Providers

Who	Activity	How	Anticipated time required (estimated)
Medical support personnel (eg MAs, CMAs, CNAs)	Blood Pressure Observation	ACHIEVE staff will observe technique for measuring BP (w/standardized patient)	15-minutes per observation
Medical support personnel (eg MAs, CMAs, CNAs)	Blood Pressure Training	ACHIEVE staff will provide training on technique for measuring BP	30-45-minute meeting or asynchronous review of video
All clinical staff	Training on recognition and response to severe HTN in perinatal patients	ACHIEVE staff provide training on the outpatient hypertension bundle and clinic specific algorithm	60-minute meeting or asynchronous review of video
Implementation team (provider, nurse, MSP)	Coaching Sessions	Meetings with ACHIEVE nurse coordinator in person or virtually;	60-minute meetings held monthly
Providers with care team (MA, CNA, nurse)	Simulations	ACHIEVE team facilitates simulations of patient presenting with severe hypertension in the outpatient clinic	30-minutes per simulation
Implementation team (provider, nurse MSP)	Surveys, interviews and/or focus groups	ACHIEVE staff will conduct these activities in person or virtually regarding implementation strategies	15-20 minutes per survey, interview or focus group

Benefits

- Training and feedback on blood pressure technique
- Training and feedback through simulation
- Monthly implementation coaching from ACHIEVE nurse coordinators
- Resources for educating patients about signs and symptoms of pre-eclampsia
- Clinic data analysis and feedback
- Collaboration with CBOs to improve maternal health
- Continued collaboration with other clinics

ACHIEVE IMPLEMENTATION YEAR AT A GLANCE

APRIL 2024	MAY 2024	JUNE 2024	JULY 2024
Implementation Team Coaching Session Blood Pressure Observations	Implementation Team Coaching Session Simulations	Implementation Team Coaching Session Blood Pressure Measurement Training (for MSPs)	Implementation Team Coaching Session
AUGUST 2024	SEPTEMBER 2024	OCTOBER 2024	NOVEMBER 2024
Implementation Team Coaching Session Severe Hypertension Recognition & Response Training (all clinical staff)	Implementation Team Coaching Session	Implementation Team Coaching Session Blood Pressure Observations	Implementation Team Coaching Session Simulations
DECEMBER 2024	JANUARY 2025	FEBRUARY 2025	MARCH 2025
Implementation Team Coaching Session	Implementation Team Coaching Session	Implementation Team Coaching Session	Implementation Team Coaching Session
SUSTAINMENT			
APRIL 2025	MAY 2025	OCTOBER 2025	APRIL 2026
Blood Pressure Observations	Simulations	Blood Pressure Observations	Blood Pressure Observations

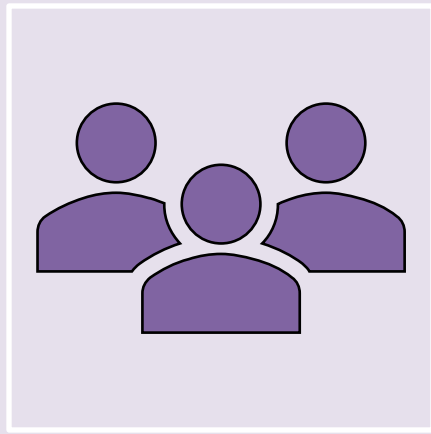

Blood Pressure Observations require all medical support personnel (MSPs) or all clinic staff members who assess blood pressure on pregnant or postpartum patients

Simulations require attendance from all members of the clinical team, including providers, nurses, medical assistants and pharmacists

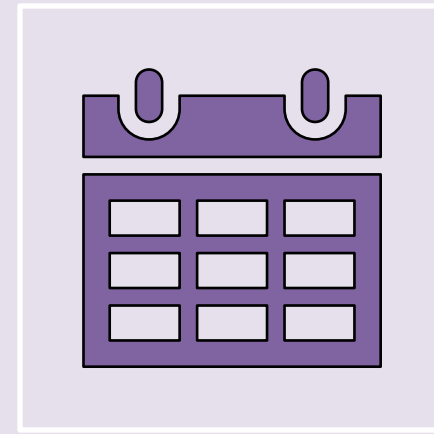

Implementation Team Coaching Sessions should include the smaller implementation team formed to focus on implementing the ACHIEVE project (MD, RN and MA/MSP at minimum)
